

— The 5 Love Languages — DICE GAME

BASIC GAME

STEP 1

Complete the 5 Love Languages profile to determine the love language for each member of your family. Use the profile provided with the 5 Love Languages kit or online at 5lovelanguages.com. Write the name of each person on the dice next to the specific Love Language that most meets their needs.

STEP 2

Take turns rolling the 5 Love Languages Dice.

STEP 3

Whatever love language you land on, choose one of your family members and come up with one idea to show that person love in that particular love language. If you land on The 5 Love Language logo, you can choose any language you like. (Example: Brother rolls the dice. It lands on "Words." Parent says, "Pick a person..." Brother chooses Dad. Parent asks, "What words can you use to show Dad you love him?" Brother says "Dad, I love how fun you are!")

BONUS ROUNDS

ROUND 1

Act out your love language and/or pick a family member whose name is on that specific love language. (Example: Sister rolls the dice and lands on the Touch icon where Mom's name is written. She walks over and gives Mom a hug!)

ROUND 2

Use a timer and give each person 30 seconds to act out a specific love language and have other family members try to guess which language he/she is acting out. Consider using colored beads or M&Ms to coordinate with each love language (green, blue, red, yellow, orange). Whoever guesses correctly gets a bead/candy in that specific color.

Keep playing until everyone has received love in their specific love language or until someone gets a bead/candy in each color!
